

OCCUPATIONAL HEALTH AND SAFETY (OHS) POLICY

As Ayfleks Packaging, we regard the health and safety of all individuals within our business ecosystem — including employees, suppliers, customers, and visitors — as the most valuable trust placed in our care. In this regard, we commit to:

- Preventing and eliminating potential workplace accidents that could jeopardise the safety of our employees, and ensuring they are able to work in a safe and healthy environment at all times.
- Managing occupational health and safety objectives effectively across all our activities, guided by a strong culture of OHS awareness.
- Continuously analysing OHS impacts, striving for improvement, and developing OHS opportunities as a cornerstone of our management approach.
- Complying fully with all applicable Occupational Health and Safety legislation — this is our non-negotiable commitment.
- Applying a comprehensive risk management system that identifies, addresses, and mitigates OHS hazards and risks in all their dimensions.
- Carrying out planned improvement activities and maintaining an open mindset towards OHS matters at every level of our organisation.
- Ensuring the active participation of all employees in OHS activities, seeking their input, and organising regular awareness-raising and knowledge-building events in collaboration with them.
