

SUSTAINABILITY POLICY

At Ayfleks Packaging; our goal is to embrace the principles of sustainability and to effectively manage climate change, climate-related environmental events, and their economic and social impacts.

❖ Environmental Sustainability

Resource Efficiency: We use energy, water, and other natural resources efficiently. Rainwater is collected and utilised within our fire suppression system.

Waste Management: We adopt appropriate waste management procedures aimed at reducing waste generation, promoting recycling, and ensuring the proper disposal of hazardous waste.

Protection of the Natural Environment: We support natural habitats and ecosystems with the aim of preserving biodiversity, using water resources sustainably, and minimising our environmental impact.

❖ Economic Sustainability

Sustainable Supply Chain: We collaborate with our suppliers to embed sustainability principles across all stages of our supply chain. Sustainability criteria are taken into account when selecting the raw materials and products we use.

Fair Business Practices: We remain committed to the principles of equality, fairness, and diversity in our recruitment, promotion, and remuneration processes. We follow international standards to protect workers' rights and occupational safety.

❖ Social Sustainability

Employee Wellbeing: We take all necessary measures to protect the health, safety, and wellbeing of our employees. We provide training opportunities, support work-life balance, and foster an inclusive working environment.

Community Engagement: We contribute to projects and initiatives that address the needs of society. We work in collaboration with local communities to support social development projects.

Stakeholder Collaboration: We actively engage with our customers, suppliers, and other stakeholders, and give due consideration to their expectations and recommendations regarding sustainability.
